

Computer Automation Systems, Inc. and Evalulogix, Inc. announce integrated product strategic partnership

Nation's leader in special education management system to offer ScoreandReport report writing solution as an integrated module within SEAS™

Mountain Home, AR – April 11, 2006 – Computer Automation Systems, Inc., the leader in special education management software for K-12 school districts, and Evalulogix, Inc., the leader in Internet-based psychological report-writing, announced a joint product integration partnership to offer the ScoreandReport report-writing software as a module of the leading SEAS™ software solution.

“This partnership reaffirms our position to bring state-of-the-art solutions to our customers,” said Harvey Hughes, President of Computer Automation. “The outstanding ScoreandReport solution combines ease-of-use, full report writing functionality, and strong compliance features that answer the evaluation report writing needs of our customers. We are very proud to be able to offer this outstanding solution to SEAS customers.”

ScoreandReport is a state-of-the-art report enhancement tool for psychologists, speech and language pathologists, and the entire community of psychometric examiners. The solution currently offers nearly 200 psychometric and other instruments to create downloadable and customizable reports. In addition, ScoreandReport helps districts stay in compliance with state and federal laws by dynamically providing legal guidance to examiners during the report writing process. This enables administrators to enforce accountability across their staff.

“Clearly, the SEAS solution is the leader in the market,” offered David Oxstein, Evalulogix President. “It offers an incredibly comprehensive set of tools to special educators. We are very pleased to incorporate the ScoreandReport solution within SEAS to offer an integrated solution that school districts cannot get anywhere else.”

A 100 percent Web-based software product, SEAS is designed to provide ease-of-use for teachers, while delivering the functionality needed to easily manage special education forms and reports tied to state-standard curriculum, related services tracking, reporting and analysis, and Medicaid billing.

The companies announced that the ScoreandReport offering within SEAS will be re-branded as a SEAS module and available to both new and existing SEAS customers.

About Computer Automation Systems, Inc.
