

SEAS™ Receives SIF 2 Compliance

Nation's leading special education management software solution continues support for open interoperability standards

Mountain Home, AR – June 17, 2010 – Computer Automation Systems, Inc. (CAS) announced that they had been notified by the SIF Certification Authority that the SEAS™ SIF agent had received its SIF 2 certification.

SEAS is the nation's leading special education software solution serving over 2,000 school districts, state agencies, and State Departments of Education. CAS has supported open interoperability to its applications for years and has been a member of the SIF Association since 2005 when SEAS received its first certification.

With this recertification, CAS maintains its commitment to customers of supporting the interoperability and open standards that they require to seamlessly make their applications work together.

The company's SIF certification can be found in the SIF Certification Register at <http://certification.sifinfo.org/register.html>.

About the SIF Association

The SIF Association is a unique, non-profit collaboration composed of over 3,200 schools, districts, states, US and International Ministries of Education, software vendors and consultants who collectively define the rules and regulations for educational software data interoperability. The SIF Implementation Specification enables diverse applications to interact and share data efficiently, reliably, and securely regardless of the platform hosting those applications. The SIF Association has united these education technology end users and providers in an unprecedented effort to give teachers more time to do what they do best: teach. For further information, visit <http://www.sifassociation.org>.

About Computer Automation Systems Inc. A K12 Plan Management Company

Computer Automation Systems (<http://www.computerautomation.com>) is passionate about helping K-12 educators meet the individual needs of students. Since 1996, its special education plan management line of products (SEAS™) has helped more than 2,000 school districts in 36 states and Puerto Rico reduce paperwork, improve compliance, increase efficiency and demonstrate accountability. That experience in Special Education and IEP Management allows us to now help districts with any student performance plans. It is this plan management expertise, coupled with exceptional customer service which permits Computer Automation Systems to retain over 99 percent of its customers while allowing schools to leverage data to improve student performance.
